"The 3D Robot That Sells For You"

01

What is Mark?

Meet your new tiny employee

Mark is a **tiny, adorable 3D robot** that lives on your website. He walks around, waves at visitors, and chats with them like a real person.

He is **NOT** a boring chatbox in a corner. Mark is a **character**. He has a personality, a backstory, and he genuinely wants to help your visitors find what they need... and buy it!

Think of him as your **24/7 AI salesperson** who never sleeps, never gets tired, and never asks for a raise.

1

Walks & Waves

Mark physically walks around your website. He waves, jumps when excited, and grabs attention like no chatbot ever could.

2

Voice Chat

Visitors can TALK to Mark with their mic. He listens, understands, and speaks back with a real human-like voice.

3

Knows Your Site

Mark crawls your entire website and learns everything: products, prices, pages. He answers from REAL data, never makes stuff up.

4

Sales Brain

Mark detects buying intent, suggests products, handles objections, and knows when to stop pushing. Smart, not annoying.

02

How It Works

5 steps. 2 minutes. Zero coding.

1

Install the Plugin

WordPress > Plugins > Add New > Search 'Mark AI' > Install > Activate. That's literally it. Mark appears on your site.

2

Add Your AI Key

Go to Mark AI settings. Paste your free Groq API key from console.groq.com. This powers Mark's brain. Takes 30 seconds.

3

Mark Learns Your Site

Mark automatically crawls all your pages, reads your products, about page, everything. No manual training needed. He just knows.

4

Visitors Meet Mark

A cute 3D robot appears on your website. He walks, waves, and says hello. Visitors click him and start chatting!

5

Mark Sells For You

Mark recommends products, answers questions, handles objections, and guides visitors to buy. You see all conversations in your dashboard.

Zero Configuration!

Mark auto-registers with the backend on activation. No URLs to set, no secrets to match, no technical setup. Just install and go!

03

Mark's 7-Layer Brain

How he thinks (and why he never lies)

Layer 1 Identity

Knows he's a cute robot that crash-landed on your website and decided to stay.

Layer 2 Site Awareness

Knows YOUR website name, URL, and what kind of business you run.

Layer 3 Personality

Friendly? Professional? Playful? You pick. He adapts his entire tone.

Layer 4 Conversation IQ

Detects what visitors want: browsing, buying, asking, or just chatting.

Layer 5 Anti-Hallucination

NEVER makes up products, prices, or policies. Only says what's actually true.

Layer 6 Sales Intelligence

Cross-sell, objection handling, urgency triggers, lead capture. All configurable.

Layer 7 Voice Format

Short, natural responses. No essays. Talks like a human, not a robot.

Each layer works together to make Mark the smartest website companion ever built.
